Contents of Volume 58

Number 1, January 2000

Tea and Health 1
Changes in Protein, Carbohydrate, and Fat Metabolism with Aging: Possible Role of Insulin 11
Warfarin Use and Fracture Risk 20
Discovery of the Ceruloplasmin Homologue Hephaestin: New Insight into the Copper/Iron Connection 22
Micronutrient Shortfalls in Young Children's Diets: Common, and Owing to Inadequate Intakes Both at Home and at Child Care Centers 27
Guidelines for Authors 30

Number 2 (Part I), February 2000

Use of Nutritional Scores to Predict Clinical Outcomes in Chronic Diseases 31
Beta Carotene: From Biochemistry to Clinical Trials 39
Association Between Body Mass Index and Adenocarcinoma of the Esophagus and Gastric Cardia 34
Omega-3 Fatty Acids Alter Soluble Markers of Endothelial Function in Coronary Heart Disease Patients 56
Calendar 60

Number 2 (Part II), February 2000

Nutrition and Infection: Malnutrition and Mortality in Public Health S1
Viruses: Evolution, Propagation, and Defense S5
Coxsackievirus as a Model of Viral Evolution Driven by Dietary Oxidative Stress S17
Immune and Other Responses to Viral Infections S25
Nutrition Resistance to Viral Propagation S31
Mother-to-Child Transmission of HIV Infection: Nutrition/HIV Interactions S38
Vitamin A and Measles S46
The Potential Impact of Nutritional Change on the Global Burden of Viral Disease S55
Discussion S63
Participants S74
Summary S76
Marabou Symposia S79

Number 3 (Part I), March 2000

Energetic Adaptation to Chronic Disease in the Elderly 61
Quest for the Molecular Mechanism of Chromium Action and Its Relationship to Diabetes 67
Does Vitamin C Intake Protect Against Lead Toxicity? 73
ABC1: The Gene for Tangier Disease and Beyond 76
Oral Rehydration Solution Therapy in the Management of Children with Rotavirus Diarrhea 80
Tea Oxalate (letter) 88

Number 3 (Part II), March 2000

Introduction S1
Overview: What Is Insulin Resistance? S2
Epidemiology S4
Role of Dietary Factors: Macronutrients S7
Role of Dietary Factors: Micronutrients S10
Obesity As a Factor S12
Relationships with Physical Activity S16
Effect of Aging S19
Genetic and Environmental Contributions S22
Summary S25

Number 3 (Part II), March 2000

Introduction S1
Overview: What Is Insulin Resistance? S2
Epidemiology S4
Role of Dietary Factors: Macronutrients S7
Role of Dietary Factors: Micronutrients S10
Obesity As a Factor S12
Relationships with Physical Activity S16
Effect of Aging S19
Genetic and Environmental Contributions S22
Summary S25

Number 4, April 2000

Energy Regulation and Aging: Recent Findings and Their Implications 91
Dieting, Essential Fatty Acid Intake, and Depression 98
Vitamin E and Memory: Is It Vascular Protection? 109
Should Dietary Calcium and Protein Be Restricted in Patients with Nephrolithiasis? 111
Noah Grows Up: Transitioning Problems from Special Feeding Routes to Oral Intake 118

Number 5, May 2000

Impact of Age on Associations Between Weight and Mortality 129
Hypervitaminosis A and Bone 138
Functional Glycerol Kinase Activity and the Possibility of a Major Role for Glyceroneogenesis in Mammalian Skeletal Muscle 145
Low-fat, High-carbohydrate Diets and Atherogenic Risk 148
Cellular Retinoic Acid–binding Protein II: A Coactivator of the Transactivation by the Retinoic Acid Receptor Complex RAR.RXR 151
Syndrome X: Medical Nutrition Therapy 154
Announcement 161
Calendar 161

Number 6, June 2000

High–glycemic Index Foods, Hunger, and Obesity: Is There a Connection? 163
Retinoids, Carotenoids, and Human Breast Cancer Cell Cultures: A Review of Differential Effects 170
Pro-opiomelanocortin (POMC) Deficiency and Peripheral Melanocortins in Obesity 177
Is Fruit Juice a "No-no" in Children's Diets? 180
Effect of Vitamin E, Vitamin C, and ß-Carotene on Stroke Risk 184
Trans Fatty Acids and Plasma Lipoproteins 188
Announcement 192

Number 7, July 2000

Homocysteine: A History in Progress 193
Methylenetetrahydrofolate Reductase Polymorphisms, Folate, and Cancer Risk: A Paradigm of Gene-Nutrient Interactions in Carcinogenesis 205
Leptin and Bone: Does the Brain Control Bone Biology? 209
Retinoic Acid Induces the Degradation of the Leukemogenic Protein Encoded by the Promyelocytic Leukemia Gene Fused to the Retinoic Acid Receptor α Gene 211
Low Nutrient Intake Contributes to Adverse Clinical Outcomes in Hospitalized Elderly Patients 214
Vitamin D–deficient Rickets: A Multifactorial Disease 218

Number 8, August 2000

Regulation of Mineral and Trace Elements in Human Milk: Exogenous and Endogenous Factors 223
A Gene Knockout Corroborates the Integral Function of Cellular Retinol-binding Protein in Retinoid Metabolism 230
Importance of Diet in Maternal Phenylketonuria 236
Passive Smoking Induces Oxidant Damage Preventable by Vitamin C 239
Nutrition Support for Individuals with Liver Failure 242
Dr. Elsie Widdowson, C.H., C.B.E., F.R.S., B.Sc., Ph.D., D.Sc., Honorary D.Sc., F.I.C., Honorary F.R.C.P., (1906–2000) ... 248
The Complicated Research Field of Nutrients and Osteoporosis 249
Iodized Salt 250
Calendar 251

Number 9, September 2000

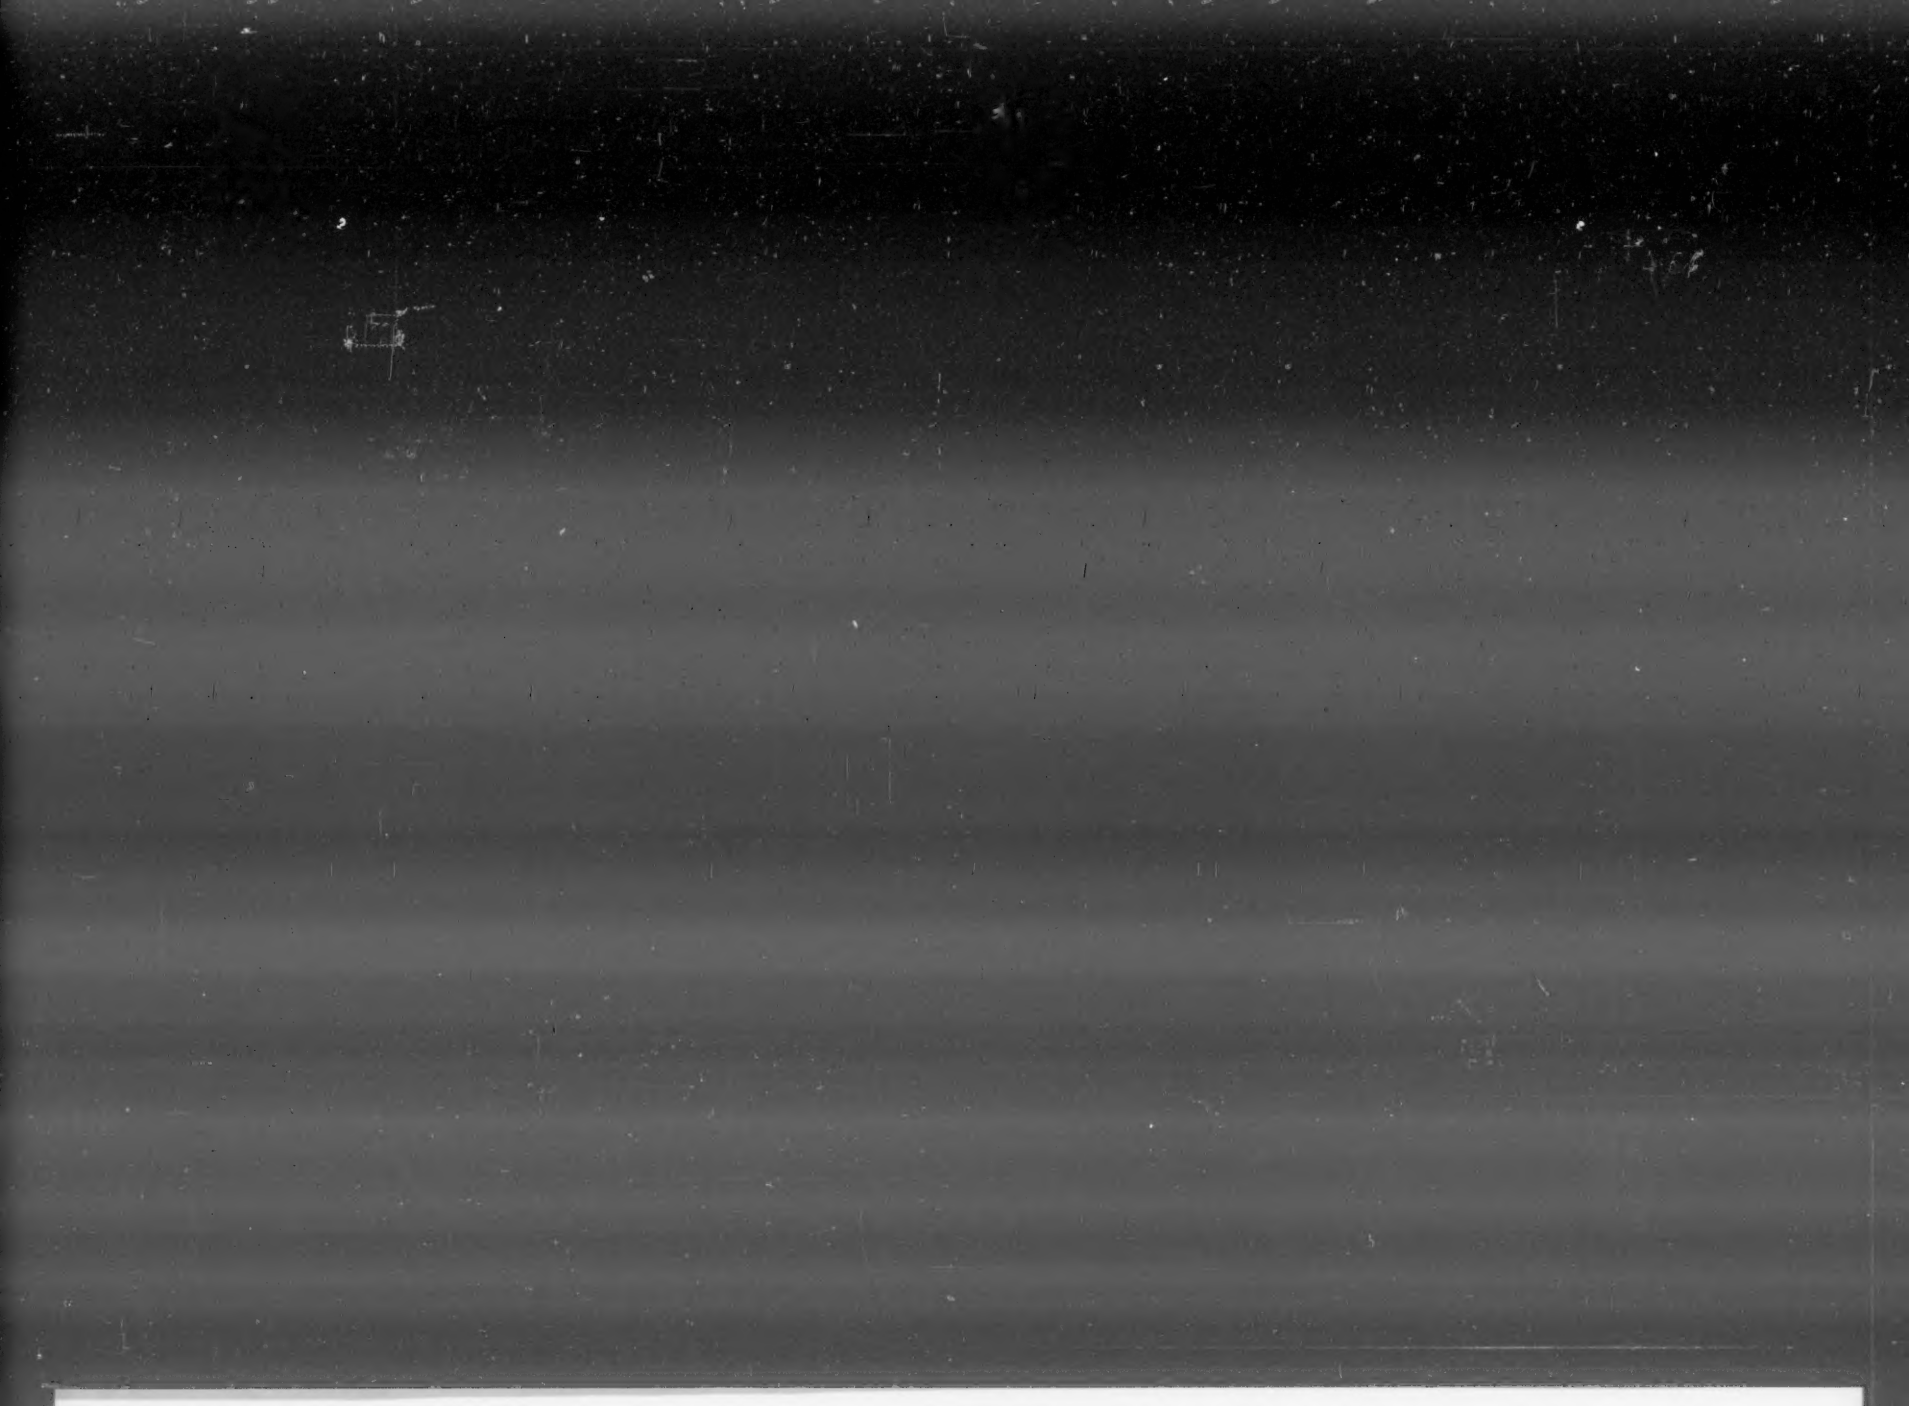
Role of Calcium in Bone Health During Childhood 253
Studies on Young Child Malnutrition in Iraq: Problems and Insights, 1990–1999 269
Vitamin E and Prevention of Heart Disease in High-risk Patients 278
Evidence Base for Specialized Nutrition Support 282
Calendar 290

Number 10, October 2000

Vitamin A and HIV Infection: Disease Progression, Mortality, and Transmission 291
Is In Vivo Nuclear Magnetic Resonance Spectroscopy Currently a Quantitative Method for Whole-body Carbohydrate Metabolism? 304
Lipoprotein Lipase Genetic Variation and Gender-specific Ischemic Cerebrovascular Disease Risk 315
Diuretics and Vitamin B_1: Are Diuretics a Risk Factor for Thiamin Malnutrition? 319
Three Decades of Dietary Recommendations 324
Dr. Abraham Horwitz (1911–2000) 332

Number 11, November 2000

Exclusive Breast-feeding: Does It Have the Potential to Reduce Breast-feeding Transmission of HIV-1? 333
Meeting Requirements for Vitamin A 341
Obesity and Mortality in African-Americans 346
The Oxidation of 9-*cis*-Retinol: A Possible Synthesis Pathway for 9-*cis*-Retinoic Acid 354
Cardiovascular Disease and Fiber: Is Insulin Resistance the Missing Link? 356
Calendar 359

Number 12, December 2000


New Approaches to Assess Selenium Status and Requirement 363
Current International Approaches to Food Claims 370
Holiday Weight Gain: Fact or Fiction? 378
Subject Index to Volume 58 380
Author Index to Volume 58 388
Contents of Volume 58 390
